

Bravida signs framework agreement with Vaxholm Municipality for electrical installations

In the framework agreement with Vaxholm Municipality, Bravida will make electrical installations in properties managed by the municipality covering a total area of approximately 60,000 square metres.

The properties managed by Vaxholm Municipality include schools, preschools, care homes for the elderly and administrative and sporting facilities. Bravida's assignment includes electrical installations, operation and maintenance, and minor work relating to new construction, refurbishment and extensions.

“We are very happy and proud to have been entrusted with this assignment, which has a strong focus on the environment, quality and sustainability. The working environment is also important, as work will take place in care homes, preschools and schools. We place great importance on the safety of residents and on minimising disruption to the running of facilities in the event of stoppages. We look forward to working together with Vaxholm Municipality,” comments Nicklas Kedemar, Branch Manager Service at Bravida.

Alexander Wahlstedt, Technical Manager at Vaxholm Municipality, comments:

“Vaxholm Municipality is very pleased that Bravida decided to submit a tender and we look forward to a good cooperation.”

The framework agreement is for a period of two years with the possibility of extension.
